Swift & Company Publicity

At a recent hearing of the Federal Trade Commission there was introduced correspondence taken from the private files of Swift & Company, which showed that the Company had been considering for some time an educational advertising campaign.

The need for this publicity has been apparent to us for several years. The gross misrepresentation to which we have recently been subjected has convinced us that we should no longer delay in putting before the public the basic facts of our business, relying on the fair-mindedness of the American people.

The feeling against the American packer is based largely on the belief that the income and well-being of the producer and consumer are adversely affected by the packers' operations, resulting in unreasonably large profits.

Swift & Company's net profit is reasonable, and represents an insignificant factor in the cost of living.

For the fiscal year 1917 the total sales and net profit of Swift & Company were as follows:

Sales
\$875,000,000.

Profits
\$34,650,000.

This is equivalent to a \$3,465. profit on a business of \$87,500.

If Swift & Company had made no profit at all, the cattle raiser would have received only one-eighth of a cent per pound more for his cattle, or the consumer would have saved only one-quarter of a cent per pound on dressed beef.

Win the War by Preparing the Land Sowing the Seed and Producing Bigger Crops

Work in Joint Effort the Soil of the United States and Canada CO-OPERATIVE FARMING IN MAN POWER NECESSARY TO WIN THE BATTLE FOR LIBERTY

The Food Controllers of the United States and Canada are asking for greater food production. Scarcely 100,000,000 bushels of wheat are available to be sent to the allies overseas before the crop harvest. Upon the efforts of the United States and Canada rests the burden of supply.

Every Available Tillable Acre Must Contribute; Every Available Farmer and Farm Hand Must Assist

Western Canada has an enormous acreage to be seeded, but man power is short, and an appeal to the United States allies is for more men for seeding operation.

Canada's Wheat Production Last Year was 225,000,000 Bushels; the Demand From Canada Alone for 1918 is 400,000,000 Bushels

To secure this she must have assistance. She has the land but needs the men. The Government of the United States wants every man who can effectively help, to do farm work this year. It wants the land in the United States developed first of course; but it also wants to help Canada. Whenever we find a man we can spare to Canada's fields after ours are supplied, we want to direct him there.

Apply to our Employment Service, and we will tell you where you can best serve the combined interests.

Western Canada's help will be required not later than April 5th. Wages to competent help, \$50.00 a month and up, board and lodging.

Those who respond to this appeal will get a warm welcome, good wages, good board and find comfortable homes. They will get a rate of one cent a mile from Canadian boundary points to destination and return.

One Man Who Drinks Alone. Wherever there is oil, Jake Mettler is known as the man who drinks crude oil and really likes it. He has become so expert in the taste of crude oil, it is said, that he can actually tell the state or oil field from which it was produced by simply tasting it. So far as known, Mr. Mettler has not yet found any one who was anxious to join him in a "Mettler cocktail," and when Colonel Jake drinks crude, he drinks alone.

Important Wedding. The Junior clerk sought out his employer and timidly addressed him. "Could I have a fortnight's leave of absence, sir, to attend the wedding of a friend?" "It must be a dear friend for you to want all that time?" inquired the boss sarcastically. "Well after the wedding, sir, she'll be my wife!"

Boy Strong for Soapless Day. A new war propaganda that is certain to be taken up enthusiastically by young America was given a start in Huntington, W. Va., by Jimmy Wallen, a schoolboy, who has been active in the different war activities. Wallen, who is always spick and span, suggests a "soapless day," saying it is easy to keep clean without using soap one day a week. The "soapless day" would help conserve fats so badly needed by the allies, Jimmy declared. —Columbus Dispatch.
